TABLE OF CONTENTS

EXECUTIVE SUMMARY

Primary Data Collection Methods	Pages 7-10
2016 Ohio State Health Assessment (SHA)	Page 11
Data Summary	Pages 12-26
Trend Summary	Pages 27-44

ADULT HEALTH CARE ACCESS

Health Care Coverage	Pages 45-47
Access and Utilization	Pages 48-49
Preventive Medicine	Pages 50-51
Women's Health	Pages 52-54
Men's Health	Pages 55-58
Oral Health	Pages 59-60

ADULT HEALTH BEHAVIORS

Health Status Perceptions	Pages 61-62
Weight Status	Pages 63-66
Tobacco Use	Pages 67-70
Alcohol Consumption	Pages 71-74
Drug Use	Pages 75-79
Sexual Behavior	Pages 80-82
Mental Health	Pages 83-85

ADULT CHRONIC DISEASE

Cardiovascular Health	Pages 86-90
Cancer	Pages 91-94
Arthritis	Pages 95-96
Asthma	Pages 97-98
Diabetes	Page 99
Quality of Life	Pages 100-101

ADULT SOCIAL CONDITIONS

Social Determinants of Health	Pages 102-106
Environmental Health	Page 107

YOUTH HEALTH

Weight Status	Pages 108-112
Tobacco Use	Pages 113-116
Alcohol Consumption	Pages 117-121
Drug Use	Pages 122-124
Sexual Behavior	Pages 125-128
Mental Health	Pages 129-132
Safety	Pages 133-134
Violence Issues	Pages 135-138
Perceptions of Substance Abuse	Pages 139-142

CHILD HEALTH

Health and Functional Status	Pages 143-145
Health Care Access	Pages 146-147
Early Childhood (0-5 Years)	Pages 148-149
Middle Childhood (6-11 Years)	Pages 150-151
Family and Community Characteristics	Pages 152-155

APPENDICES

APPENDIX I — Health Assessment Information Sources	Pages 156-159
APPENDIX II — Acronyms and Terms	Pages 160-161
APPENDIX III — Weighting Methods	Pages 162-163
APPENDIX IV — School Participation	Page 164
APPENDIX V — Demographic Profiles	Pages 165-166
APPENDIX VI — Demographics and Household Information	Pages 167-174
APPENDIX VII — County Health Rankings	Pages 175-177
APPENDIX VIII — Partnership Profile	Pages 178-179
APPENDIX IX – 2019 CHA Annual Update	Pages 180-182

Appendix IX: 2019 CHA Annual Update

Introduction

This 2019 update builds upon the Community Health Assessment (CHA) conducted in 2017 and published in 2018. This update contains the most recent data that was shared and discussed with the entire Partnership throughout 2019. While we are publishing this report as an update to our 2018 Community Health Assessment, we are not changing the identified priority health issues. The top three health issues of mental health and addiction, chronic disease and cross-cutting factors continue to be addressed through the 2019-2022 Community Health Improvement Plan (CHIP).

This addendum was reviewed by the Partnership for a Healthy Delaware County which oversees the CHA and is being used to inform and solidify the year two CHIP action plans.

We also hope this update proves useful to residents, agencies, our Board of Health, and other government agencies as they continue to plan for action to improve the health of Delaware County.

In Good Health,

Chris Fink, PhD

Community Profiles

Community Profiles are factsheets prepared by the Delaware General Health District (DGHD) for each Delaware County township, village, and city. These sheets will be published every 2 years. Information in the profiles includes births, deaths, population growth, age, race, life expectancy, free/reduced school lunch rates, poverty, social vulnerability, disability, healthcare, community resources, and information on DGHD services.

2018 Annual Overdose Fatality Report

This report was prepared by DGHD and contains information on Delaware County residents who died from an unintentional overdose in 2018. Demographic data is included (age, race, marital status, education) as well as details on the type and number of substances found in the persons system at the time of death. Maps of decedent home residence as well as place of death are included.

2019 Mid-Year Overdose Fatality Report

This report was prepared by DGHD and contains information on Delaware County residents who died from an unintentional overdose in January-June 2019. Demographic information is included as well as information on the number and type of substances involved in the persons death. A map is included with the decedent home residence as well as place of death.

2017/2018 Suicide Report

This report was prepared by DGHD and contains information on Delaware County residents who died by suicide in 2017/2018. National and state data is included to highlight demographic and geographic trends. Local data is aggregated by year and includes age, race, gender, military service, education, marital status, time of year, time of death, cause of death, significant conditions, and place of death (location type). Similar information is included for the age group 45-64 as well as by gender.

Delaware County Cancer Profile 2019

The Ohio Department of Health (ODH) provides a detailed report on the Incidence and mortality of cancer seen in Delaware County residents. These rates are compared to national and state data. Also included in this report are incidence and mortality trends, stage at diagnosis, and risk factors.

Age-Friendly Delaware County Report

Age-Friendly Delaware County was a randomized community survey administered to County residents age 55+. This report contains results from the assessment as well as a full process methodology. Domains addressed in the report include outdoor spaces and buildings, transportation, housing, community engagement and participation, communication and information, community and health services, and demographics.

All Data can be found on the Delaware County data page:

Timeline

6/19/19 –

- 2018 Delaware County Overdose Report and data shared with The Partnership at the quarterly meeting.
- Delaware County Age-Friendly Report highlights shared with The Partnership at the Quarterly meeting.

12/18/19 –

- The following reports were shared and reviewed at the quarterly Partnership meeting:
    - Delaware County Community Profiles
    - Delaware County 2019 Semi-annual Overdose Report

- Delaware County Suicide Data
- Delaware County Cancer Data

2/14/20 –

- 2019 CHA Annual Update shared with The Partnership Steering Committee and discussed.

2/21/20 –

- 2019 CHA Annual Update shared electronically with full Partnership and posted for 10 business days for the Delaware General Health District website for public feedback.

3/6/20 -

- 2019 CHA Annual Update reviewed, feedback discussed, and annual update approved.
