

DRIVE-IN INFO FOR RELIGIOUS SERVICES

Even though religious activities are allowed by Ohio's Stay At Home Order, the Health District **does not recommend leaving home and congregating in groups unless necessary.**

IF PLANNING ON PROVIDING DRIVE-IN RELIGIOUS SERVICES, PLEASE FOLLOW THESE SAFETY GUIDELINES TO PROTECT PUBLIC HEALTH:

- Limit one household per vehicle. **Stay in your car and DO NOT walk around to visit others.**
- Determine the number of cars based on parking lot size. There should be at least **6 feet** between all cars, which may require making the spaces between vehicles wider than the marked parking lines.
- Broadcast the service via car radio so members can stay in their cars **with the windows up.**
- Limit the number of attendees by promoting drive-in services only to current members.
- Ask sick members to stay home.
- Do not allow cars to idle during the service. (Participants should bring a generator or portable radio if they are concerned about battery life.)

COMMUNION

If you choose to provide communion, serve it with caution:

- It should be served or distributed pre-packaged in an effort to limit handling.
- The communion package should be distributed by someone wearing gloves and covering their mouth and nose with a mask, scarf or bandana.
- Every effort should be made to limit people gathering together in close proximity (less than 6 feet) to pick up communion and/or receive communion.

THE BEST OPTION: ONLINE!

Leaders can use Facebook Live and followers can watch services and join in with their own comments and prayers.

If capacity allows, host a conference call with members.

Videos can be posted to a YouTube channel with a link for text communications.

If technology is a barrier, leaders can post a transcript of the service on their website or Facebook page, or e-mail the transcript to their community.
