

**Pop-Up Testing Event | Friday Aug. 7, 2020 | Second Ward Community Center**

Participants will be directed to drive southbound on Liberty Street from William Street then turn right onto Ross Street. There will be no turn onto Ross Street from northbound S. Liberty Street. Northbound lane on Liberty Street will be closed at Harrison Street. Ross Street will be closed at Noble Street. Clinic exit will be onto Noble Street. Delaware Police Department will be managing traffic throughout the day and will make adjustments for safety and traffic flow as needed.

- Wear a face covering to comply with Governor’s Order.
- This is a drive-thru testing event with walk-up option for those without transportation or who live in the community. (See map for more details)
- Participants will have to complete a specimen submission form and are encouraged to bring a pen and hard surface to write on.
- Adults over 17 will receive a nasopharyngeal swab. Children between the ages of 1-17 will receive an anterior nasal swab. No one under the age of 1 will be tested.
- Testing is highly recommended to anyone showing one or more of the following symptoms: cough, shortness of breath, fever, muscle pains, sore throat, loss of taste or smell, chills, nausea/vomiting/diarrhea.
- Whether your test result is positive or negative, you will receive a phone call from the Health District to inform you of the results. If the Health District cannot reach you by phone, you will receive a letter in the mail with test results.
- Test results will be available within 3-7 business days.
- Testing negative for COVID-19 at the time your sample was collected does not guarantee you will not become sick. You might test negative if the sample was collected early in your infection and test positive later during your illness. If you develop symptoms later, you might need another test to determine if you are infected with the virus that causes COVID-19.
- No antibody testing will take place.
