

Gasoline, Kerosene & Antifreeze

The best way to handle gasoline, kerosene, and antifreeze is to use it up as intended. Gasoline and kerosene will not go bad if they sit in a garage for the winter.

Gasoline, Kerosene, and antifreeze are accepted at the DKMM (Delaware, Knox, Marion, Morrow) Solid Waste District Household Hazardous Waste Drop Off events.

Central Ohio Oil, (795 Marion Road, Columbus, 43207; 614-443-9728) will also accept these materials free of charge throughout the year.
